

Bio-diesel - The next generation fuel!
A seminar cum networking session on this unique business opportunity

Why Bio-diesel?

Bio-diesel is a cleaner burning alternative to petroleum-based diesel. Made from renewable resources like jatropha, neem, soybeans, other natural fats and oils, it can be used in a diesel engine or boiler with few or no modifications and is extremely eco-friendly. This seminar will discuss the fuel's environmental and technical properties and its commercial applications including supply, pricing issues and Govt. Tax initiatives.

Date:

11 November 2005
09:30 – 17:00 hrs

Venue:

Institute of Bioinformatics and Applied Biotechnology
G-05, Tech Park Mall, ITPL, Whitefield Road, Bangalore – 560 066
Phone: 080-2841 6034, 080-2841 2769, email: ritu@ibab.ac.in
