

**'Research & Teaching Assistant'
position open: Apply now**

Qualification:

- a) Completion of MSc or MTech in any life sciences branch after 2013; Bachelor's degree holders with 1 or 2 years of wet-lab experience can also apply.
- b) Confidence in conducting experiments in molecular biology, basic microbiology and biochemistry on their own.
- c) Good communication skills; a liking and confidence in teaching.

Main responsibilities:

In consultation with, and guidance from, specific faculty members,

- a) standardize new experiments
- b) take up active role in one or more ongoing research projects at IBAB
- c) make new plans, prepare, and assist in teaching laboratory skills and experiments to (mainly MSc) students
- d) maintain laboratory equipment and consumables
- e) take up any other related tasks as and when assigned

Remuneration:

Rs. 25,000/- (or more - depending on the experience and capacities of the candidates)

Number of positions: two

Commitment required: minimum one year.

Note: A 'one day' hands-on test may be conducted as part of the screening process. There may also be an online test to short-list candidates for the final interview and/or the hands-on test.

Email your CV to jobs@ibab.ac.in and/or directly contact Dr. Kshitish Acharya at the earliest!
